

8-inch (200mm) 220V 50/60Hz Air Ventilation Axial Flow Fan

Product Overview

The 8-inch (200mm) 220V 50/60Hz Air Ventilation Axial Flow Fan is a compact, efficient, and portable blower designed for versatile industrial and commercial use. Ideal for applications ranging from construction sites to home use, it ensures optimal air circulation with low noise and energy-efficient performance.

Key Features

- Voltage: 220V, 50/60Hz
- Type: Axial Flow Fan
- Core Component: Copper wire motor
- Noise: Low
- Installation: Free-standing
- Power Saving: Energy-efficient operation
- Package Size: 30 x 35 x 40 cm
- Gross Weight: 9.000 kg

Technical Specifications

- Air Flow Rate: 900 m³/h
- Fan Speed: 2800 RPM
- Blade Material: Aluminum
- Motor Power: 120W
- Protection Class: IP44 (splash-proof, suitable for indoor and outdoor use)
- Temperature Range: -10°C to +60°C
- Insulation Class: Class B

- Noise Level: ≤ 65 dB(A)

Applications

- Hotels
- Shops
- Manufacturing Plants
- Construction Sites
- Restaurants
- Home Use

Supplier Information

Lystus Technical is the supplier, importer, and seller of this axial flow fan. For more details, visit lystus.com.ng.
